OUR STORY CONTINUES...

Established in 1997, the Baffin® Brand was born from a genuine love for the country in which it resides. With Canada's uncompromising landscapes and rugged extremities, there was a need for Footwear that could provide the utmost protection from those elements.

Baffin® believes in designing for extreme performance in challenging conditions; so we make the most well thought out, durable and dependable Footwear and Apparel possible, for you to focus on the task at hand without giving your gear a second thought.

We believe that product testing shouldn't end in a factory or lab, so we take our gear to the most extreme environments on the planet and real-world test everything we produce. Our product performs there, so we're confident it will perform for you – regardless of the elements.

Paul Hubner, President & CTO (Chief Testing Officer)

OUTER LAYER

Trust Baffin's Outer Layer Apparel as your line of defense against harsh elements. This series of insulated jackets and pants are designed to provide extreme cold-weather protection in a variety of environments. From our 800 Fill Down Polar Suit to our Eco-Down Camp Hoodie, these are perfect for keeping you warm on subzero expedition days or any extended period of time in a freezing atmosphere.

SERIES FEATURES

- Wind and water-resistant
- Specifically designed for use with the Baffin® Apparel layering system
- Insulated cold-weather protection

POLAR PARKA OUTR-U001

- Waterproof, full two-way zipper
- 800 Fill Down
- Adjustable hood

GL2 - Expedition Gold
SIZES: S • M • L • XL • XXL

POLAR PANTS OUTR-U002

- Waterproof, full two-way zipper
- 800 Fill Down
- Reinforced knees and seat areas

GL2 - Expedition Gold
SIZES: S • M • L • XL • XXL

NEPAL JACKET OUTR-U003

- 800 Fill Down
- Adjustable hood, easily hidden under collar
- Signature Baffin® arm pocket for convenient storage

BK1 - Black
SIZES: S • M • L • XL • XXL

CAMP HOODIE OUTR-U004

- Continuous fiber Eco-Down insulation allows for no air gaps
- Draw cord keeps hood snug
- Zippered pockets on sides and chest

BK1 - Black
SIZES: S • M • L • XL • XXL

SOFT SHELL LAYER

Baffin's Soft Shell Layer strikes a calculated balance between performance and protection. This layer is great for use in extreme-cold environments where activity level is high. When using this layer in performance applications, it's important to keep your body generating heat through activity. While designed for expedition use, these pieces are great for all outdoor recreation – whether out on the slopes, behind the trigger of a sled or simply outside enjoying all that winter has to offer.

SERIES FEATURES

- Waterproof breathable membrane on all shoulders and hood
- High visibility zippers and piping
- Multiple interior and exterior vented pockets for storage and improved temperature regulation

SOFT SHELL HOODED JACKET

SHEL-M001 SHEL-W001

- Fleece lined interior
- Stretchable fabric blend for maximum comfort and mobility
- Adjustable hood for functionality (Can fit over helmets)

MEN BK1-Black
SIZES: M • L • XL • XXL

WOMEN BK1-Black
SIZES: S • M • L

SOFT SHELL PANTS

SHEL-M003 SHEL-W003

- Button and buckle belt for waist fastening
- Fleece lined interior with quad-pockets and zippered leg bottoms
- Waterproof breathable stretch-membrane

MEN BK1-Black
SIZES: M • L • XL • XXL

WOMEN BK1-Black
SIZES: S • M • L

VENT-MAX HOODED JACKET

SHEL-M006 SHEL-W006

- Water repellent vent-max chest and back for high-performance temperature regulation
- Stretchable fabric blend for maximum comfort and mobility
- Adjustable hood functionality (Can fit over helmets)

MEN GY2-Charcoal
SIZES: M • L • XL • XXL

WOMEN WT1-White
SIZES: S • M • L

MID-LAYER

Mid-Layer's are important regardless of your layering combination. The pieces in Baffin's system have been purposefully thought out to cover all applications of warmth needs.

SERIES FEATURES

- Removable warmth layers for aid in temperature regulation
- Specifically designed for use with the Baffin® Apparel layering system
- Multiple chest, side and arm pockets

MID-LAYER HALF ZIP

MIDL-M001 MIDL-W001

- Wind and water-resistant
- Thumbhole to eliminate exposure in layering
- Baffin® signature arm pocket

MEN BK1-Black
SIZES: M • L • XL • XXL

WOMEN BK1-Black
SIZES: S • M • L

MID-LAYER PANTS

BASE LAYER

Baffin's Base Layer series offers two high-performance options for moisture management in your layering setup. While both options provide high-wicking materials, each piece brings a unique fit, weight and warmth to the equation. These pieces are adaptable and perform in a wide range of activities and temperatures.

SERIES FEATURES

- Fast, high-wicking fabrics to keep you dry
- Synthetic fibers for next-to-skin comfort
- Specifically designed for use with the Baffin® Apparel layering system

BASE LAYER TOPS **NEW** BASE-M001 BASE-W001

SOCKS

One of the most important questions we're asked has always been "what are the best socks to wear with Baffin® footwear?" so, we took great care in designing our sock program. We can confidently answer that question with: "Baffin® socks". Our assortment considers Baffin® Footwear heights and multi-layer lining systems to offer a range of sock options, which address all of your cold weather and all season needs.

SERIES FEATURES

- Specifically designed for use with Baffin® Inner Boot Systems
- Multiple height options for different footwear heights
- Calculated blends of natural and synthetic fibers for maximum performance

UNDER KNEE SOCK SOCK-U002

- High-wick Hydromax™ Yarn pulls moisture away to keep foot dry
- Proprietary fibre balance for multi-use temperature regulation
- High durability in the toe and heel provide resistance to wear

BK1 - Black

HEAD GEAR

Your head is one area of the skin where heat is lost more quickly. Protecting your most valuable asset is imperative in any winter adventure. This series combines everything you need to protect your neck, face and head from any cold weather environment. While each piece is beneficial on its own, combining some will offer the ultimate defense in capping off the Baffin® Apparel layering system.

SERIES FEATURES

- Specifically designed for use with the Baffin® Apparel system
- Polar Proven®
- Appropriate for independent use and protection

FLEECE BALACLAVA HEAD-U001

- Thermaplush™ layer for next-to-skin comfort and warmth
- Wind-resistant outer layer

UNISEX BK1 - Black

- Merino wool blend provides warmth and natural temperature regulation

UNISEX BK1 - Black
ONE SIZE ONLY

POLAR PROVEN

In 2006, Owner and CTO (Chief Testing Officer) Paul Hubner capitalized on an opportunity to challenge himself and his product. Paul wore his boots to ski the last degree to the geographic North Pole. On this trip, Baffin® was able to experience first-hand how its product withstood the test of the Arctic elements. The result? Success.

The '06 Polar Expedition not only proved Baffin's Footwear, it spawned an interest beyond Footwear. Baffin® realized it could apply the layering fundamentals that make its Boot System successful to its Apparel as well. The vision for launching Baffin's Apparel was to outfit anybody from head-to-toe for Polar Expeditions. If Baffin's product could succeed at the Poles, it should succeed for its users – no matter their challenging environment.

In 2008 Paul successfully trekked to both the North and South Poles. These accomplishments, while a personal challenge in themselves, were about the gear. It was for these achievements that Baffin® felt confident in bringing its Apparel to market, and from that year forward committing to 'Polar Proving' all cold weather products.

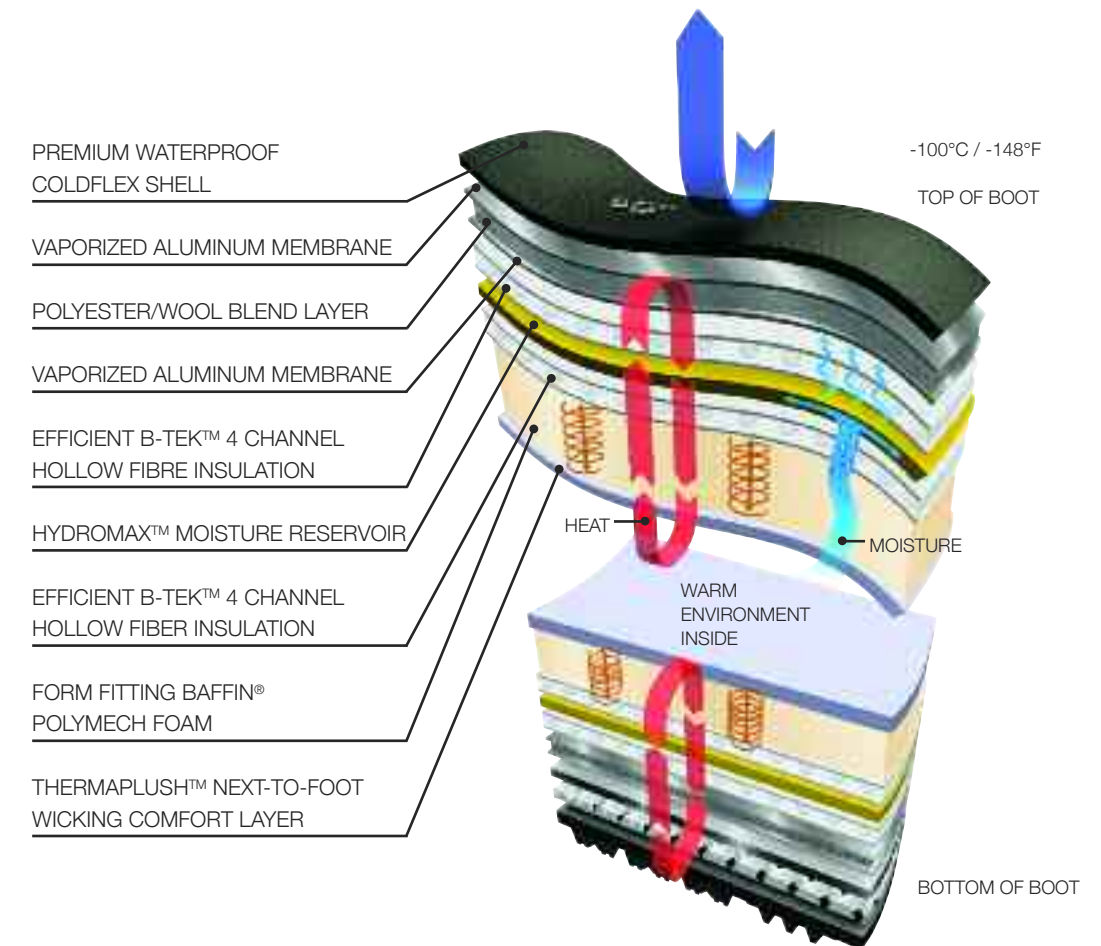

DESIGNED FOR EXTREME COLD

Inner Boot System: Our multi-layer inner boot creates a warm environment because body moisture is wicked away. A Hydromax™ layer, combined with Baffin's proprietary B-Tek™ (four channel hollow fibre) layer acts as a moisture control system keeping the foam dry and funneling water vapour out of the boot. Our innermost layer, Baffin's Thermaplush™, is a next-to-skin material that feels remarkably soft and smooth. A vaporized aluminum membrane has a silver surface which reflects energy back toward the boot. Lastly, our waffle-comb foot-beds under the liners create a space for warm air under foot; and a double aluminum insole reflects cold toward the outsole. As we offer a wide range of temperature protection,

each series has a unique combination of these layers – sometimes doubling up where needed – to keep you warm in the most extreme conditions.

Compound Philosophy: At Baffin® we always use premium, high-quality raw materials to produce our various finished compounds for moulded bases and fully moulded boots. Various materials are sourced with the applications for which they will be used in mind. We flex each finished mould, with each compound blend, 50,000 times in a range of extreme cold temperatures to ensure their durability. Here is a breakdown of our proprietary compounds that you will find are combined to make each series or product unique.

Polar™ Rubber: Baffin's Polar blend has been developed to be more durable, lighter-weight and remain more flexible at cold temperatures than traditional vulcanized rubbers. This results in a softer rubber to maximize grip on snow and ice, without compromising resistance to abrasion and wear.

Arctic™ Rubber: This TPR synthetic blend is our choice compound for base shell's as it provides ultimate protection from the elements; striking a calculated balance between lightweight flexibility, cold-resistance, and resilience.

Premium Rubber: Baffin's standard, natural-based rubber blend for flexible durability.

Superlite™ Blend: Our urethane-based synthetic compound allows for less material to achieve the same result, thus resulting in a performance fitting, lighter-weight base and boot.

AirGrip® Blend: Baffin's proprietary balance of rubber and EVA produces an ultra-light blend, mouldable from the midsole through to the outsole to provide cushioning and grip while greatly reducing the weight of the boot.

EVA: A resilient and lightweight air-filled compound that insulates and cushions.

POLAR

Baffin's Polar Proven® specialized boots are rated to perform at -100°C/-148°F. Tested at both the North and South Poles, these boots perform flawlessly under the most demanding conditions. In our Polar liners we doubled up on B-Tek™ insulation and added a double aluminum insole and waffle-comb foot-bed to trap the warm air produced by your body and keep the cold out. This series is appropriate for extended periods of time in extreme cold weather, snow and/or ice covered environments, where activity level may be low to moderate.

MEN'S 3-PIN SERIES

3-PIN

Baffin's 3-Pin boots are rated to perform at -70°C/-94°F. Developed using nanotechnology, our gel-based thermal insulation allows the removable liner to be lighter and more comfortable while proving itself in extreme cold temperatures. Tested on both Arctic and Antarctic expeditions, these boots continuously perform on long journeys across snowy and icy terrain. This series features an extended toe piece with three pinholes, specifically designed to line up and clamp down into a three-pin binding system for cross-country ski touring.

ULTRALITE™

Ultralite™ is the evolution of winter footwear, where comfort meets agility without compromising style or protection. With highly breathable, waterproof upper materials and a heat-mouldable, removable liner with B-Tek™ Lite insulation, this series guarantees weather protection in temperatures ranging from 5°C/41°F to -50°C/-58°F. Weighing only 2lbs per boot, these sit upon a Superlite™ shell which features a snowshoe ledge. Finally, our proprietary AirGrip® starts in the midsole and is moulded through the outsole, then rounded out with Polar™ Rubber contact points for additional slip resistant grip on snow and ice.

ARCTIC

Baffin's Polar Proven® specialized boots are rated to perform at -100°C/-148°F. Tested at both the North and South Poles, these boots perform flawlessly under the most demanding conditions. In our Arctic liners we doubled up on B-Tek™ insulation and added a double aluminum insole and waffle-comb foot-bed to trap the warm air produced by your body and keep the cold out. This series is appropriate for extended periods of time in extreme cold weather, snow and/or ice covered environments, where activity level may be low to moderate. Specifically designed for a women's fit.

WOMEN'S ULTRALITE™ SERIES

ULTRALITE™

Ultralite™ is the evolution of winter footwear, where comfort meets agility without compromising style or protection. With highly breathable, waterproof upper materials and a heat mouldable, removable liner with B-Tek™ Lite insulation, this series guarantees weather protection in temperatures ranging from 5°C/41°F to -50°C/-58°F. Weighing only 2 lbs per boot, these sit upon a Superlite™ shell which features a snowshoe ledge. Finally, our proprietary AirGrip® starts in the midsole and is moulded through the outsole, then rounded out with Polar™ Rubber contact points for additional slip resistant grip on snow and ice.

JUNIOR'S/YOUTH'S/CHILD'S SNOWFLAKE SERIES

SNOWFLAKE

Baffin's Snowflake series is approached with the same comfort, warmth and quality in mind as we approach any of our adult lines. Boasting a -40°C/-40°F temperature rating, we've managed to design a line of boots with a girl's fit and a feminine styling. Our flexible Arctic™ Rubber base allows all little Baffin® wearers to take on any winter weather with in comfort. Whether it's at recess, the park or at home in your backyard - we're proud to know your kids will have the same Baffin® confidence that you do, all winter long!

CUSH

The Cush Series is a sleeping bag for your feet! Cush is different than a slipper. It has a soft nylon upper, cozy insulation, elasticized lockable tie and a durable nylon bottom - excellent for around the house or for traveling. Cush are equally comfortable on planes, in hotels and when on winter camping adventures.

SERIES FEATURES

- Soft nylon insulated upper
- Slip resistant, durable nylon bottom
- Elasticized lockable tie
